

UTILITY - SERVICE

Chapter 1190 WATER - WASTEWATER SYSTEMS - MAINTENANCE

CHAPTER INDEX

Article 1 INTERPRETATION

- 1190.1.1 Automatic meter reading device - defined
- 1190.1.2 Building defined
- 1190.1.3 Chief Building Official - defined
- 1190.1.4 Condominium - defined
- 1190.1.5 Contractor - defined
- 1190.1.6 Council - defined
- 1190.1.7 Cross connection - defined
- 1190.1.8 Customer - defined
- 1190.1.9 Developer - defined
- 1190.1.10 Emergency - defined
- 1190.1.11 Engineer - defined
- 1190.1.12 Meter - defined
- 1190.1.13 Meter chamber - defined
- 1190.1.14 Meter services - defined
- 1190.1.15 Property - defined
- 1190.1.16 Occupant - defined
- 1190.1.17 Owner - defined
- 1190.1.18 Plumbing - system - defined

WATER - WASTEWATER

- 1190.1.19 Potable water - defined
- 1190.1.20 Private water service - defined
- 1190.1.21 Shut-off valve - defined
- 1190.1.22 Town - defined
- 1190.1.23 Treasurer - defined
- 1190.1.24 Unit - defined
- 1190.1.25 Wastewater rate - defined
- 1190.1.26 Water - defined
- 1190.1.27 Watermain - defined
- 1190.1.28 Water service - defined
- 1190.1.29 Waterworks distribution system - defined
- 1190.1.30 Wastewater system - defined

Article 2 DUTIES OF ENGINEER

- 1190.2.1 Distribution system - maintenance - management
- 1190.2.2 Enforcement - provisions of Chapter
- 1190.2.3 Other duties - as set out by Council

Article 3 DUTIES OF THE TREASURER

- 1190.3.1 Meter services - billing - collection - management
- 1190.3.2 Enforcement - meter services
- 1190.3.3 Other duties - as set out by Council

Article 4 APPOINTMENT OF OTHER OFFICERS

- 1190.4.1 Council authority

Article 5 RULES AND REGULATIONS

- 1190.5.1 Set out - this Chapter

WATER - WASTEWATER

- 1190.5.2 Water supply user - bound by rules - regulations

Article 6

WATER SHUT OFF FOR EMERGENCIES

- 1190.6.1 Engineer's discretion
1190.6.2 Notice - reasonable - to users
1190.6.3 Water turned on - when problem rectified

Article 7

RIGHTS OF ENTRY TO PRIVATE PROPERTY

- 1190.7.1 Notice - prior to entry - exception
1190.7.2 Access - permitted - to all properties at reasonable times
1190.7.3 Shut off - upon reasonable notice - Town not liable
1190.7.4 Access denied - water shut off - fee
1190.7.5 Notice - written - posted - requirement - prior to shut off

Article 8

UNAUTHORIZED OPERATION OR INTERFERENCE OF WATERWORKS

- 1190.8.1 Prohibited - offence
1190.8.2 Shut off valve - clear - accessible - at all times

Article 9

UNAUTHORIZED INTERFERENCE WITH METER

- 1190.9.1 Prohibited - offence
1190.9.2 Shut off - service suspended - until approved by Engineer

Article 10

INSTALLATION OF WATER SERVICES

- 1190.10.1 Written application - uses specified
1190.10.2 Application - signed
1190.10.3 Installation rate - fixed - how calculation
1190.10.4 Fee - payment - upon application
1190.10.5 Fee - not specified - deposit upon application

WATER - WASTEWATER

- 1190.10.6 Application - approval denied - authority
- 1190.10.7 Application denied - appeal to Council
- 1190.10.8 Application approved - upon terms - conditions
- 1190.10.9 Single service - each building - exception
- 1190.10.10 Separate curb stop - each building
- 1190.10.11 Multiple buildings - single lot - single service - conditional
- 1190.10.12 Application approved - fees paid - service installed
- 1190.10.13 Installation approval - authorized persons only
- 1190.10.14 Construction - requirements - standards
- 1190.10.15 Service - less than 100 mm - seamless copper
- 1190.10.16 Pipe fittings - specifications
- 1190.10.17 Services installed - application for water supply

Article 11

INSPECTION OF WATER SERVICE

- 1190.11.1 Required - all installations - fee

Article 12

MAINTENANCE OF WATER SERVICES

- 1190.12.1 Maintenance - cost - paid by Town
- 1190.12.2 Shut off - as necessary - for work - repairs - emergency
- 1190.12.3 Supply - maintained - with reasonable diligence

Article 13

PRIVATE WATER SERVICES

- 1190.13.1 Installation - by property owner
- 1190.13.2 Plumbing system - designed to incorporate meter
- 1190.13.3 Space provided - for all meters - location
- 1190.13.4 Automatic meter reading device - placed as directed
- 1190.13.5 Automatic reading device - installed by Town - exception
- 1190.13.6 Construction - standards

WATER - WASTEWATER

- 1190.13.7 Private system - capable of being completely drained
- 1190.13.8 Building with no basement - inlet - shut off placement
- 1190.13.9 Meter damage - owner responsibility
- 1190.13.10 Meter - outside building - meter chamber - required

Article 14

WATER SUPPLY FOR BUILDING PURPOSES

- 1190.14.1 Application - separate - for each building
- 1190.14.2 Temporary water charge - payment requirement
- 1190.14.3 Permit - expiry

Article 15

NOTICE FOR INSPECTION

- 1190.15.1 Chief Building Official
- 1190.15.2 Other authorities having jurisdiction
- 1190.15.3 Work left uncovered - until approved
- 1190.15.4 Inspection - upon notice - within two days
- 1190.15.5 Inspection - immediate - due to soil conditions
- 1190.15.6 Supply not turned on - until inspected - approved
- 1190.15.7 New construction - not occupied prior to inspection

Article 16

WATER FOR FIRE EXTINCTION

- 1190.16.1 Separate and distinct system - requirement
- 1190.16.2 Shut off valve - outside building - Town use only
- 1190.16.3 Fire rated meter - requirement
- 1190.16.4 Use of water - other than specified - prohibited

Article 17

USE OF WATER FROM FIRE HYDRANTS

- 1190.17.1 Other uses of water - approval required
- 1190.17.2 Water use - consumption charge

WATER - WASTEWATER

1190.17.3 Operation - fire hydrant - authorized person only

Article 18

MAINTENANCE OF PRIVATE WATER SERVICES

- 1190.18.1 Maintained - working - in good repair - by owner
- 1190.18.2 Inlet valve - maintained - owner responsibility
- 1190.18.3 Defects - repaired by owner
- 1190.18.4 Water shut off - at Town's discretion - defective system

Article 19

WATER SUPPLY

- 1190.19.1 Turned on - after inspection approval - payment of fees
- 1190.19.2 Water use - other than permitted

Article 20

CONNECTIONS TO WATER SERVICES OR PRIVATE WATER SERVICES

- 1190.20.1 Connections - with written consent only
- 1190.20.2 Unlawful connection - fees estimated use - other penalties
- 1190.20.3 Connection - other than through meter - prohibited

Article 21

PROTECTION FROM CONTAMINATION

- 1190.21.1 Connection - improper - prohibited
- 1190.21.2 Inspection - access provided - at all reasonable times
- 1190.21.3 Risk of contamination - shut off - notice to comply
- 1190.21.4 Water supply - restored - upon approval - inspection
- 1190.21.5 Contravention - order to comply
- 1190.21.6 Cross connection control device - when required
- 1190.21.7 Cross connection - backflow prevention devices
- 1190.21.8 Cross connection devices - inspected - tested - annually - fee
- 1190.21.9 Cross connection control device - inspection - report
- 1190.21.10 Failure to test - notice - deadline - shut off

WATER - WASTEWATER

- 1190.21.11 Inspection finds defect - repair by owner - deadline
- 1190.21.12 Removal of cross connection devices - approval required

Article 22 RANGE BOILERS

- 1190.22.1 Water shut off - Town not liable
- 1190.22.2 Prevention of water escaping back - relief valves required

Article 23 WATER COOLED AIR CONDITIONING SYSTEMS

- 1190.23.1 Use - Town supplied water - restriction
- 1190.23.2 Maximum capacity - no cooling water running to waste

Article 24 WATER METER INSTALLATION

- 1190.24.1 Required - all water services
- 1190.24.2 One meter - each building
- 1190.24.3 Cost paid - prior to installation - meter Town property
- 1190.24.4 Meter - installed - prior to occupancy
- 1190.24.5 Meter installed - plumbing incomplete - additional charge
- 1190.24.6 Remote reading device - use - other conditions
- 1190.24.7 Meter stolen during construction - replacement - cost
- 1190.24.8 Meter installation request by Town - not responded to

Article 25 METER REPAIRS AND MAINTENANCE

- 1190.25.1 Cost paid by Town - exception
- 1190.25.2 Access to meter denied - water shut off - fee
- 1190.25.3 Meter removal for testing - system modification
- 1190.25.4 Failure to repair - water shut off - fee
- 1190.25.5 Inspection - repair appointment - missed - fee
- 1190.25.6 Meter - replacement - relocation - changed - fee paid

WATER - WASTEWATER

- 1190.25.7 Service requested - by owner - no malfunction - fee
- 1190.25.8 Leak - at meter - couplings - reported immediately
- 1190.25.9 Meter not leaking - leak from other source - fee
- 1190.25.10 Meter services by Town only - limitation

Article 26

WATER AND WASTEWATER BILLING

- 1190.26.1 Based on metered water consumption
- 1190.26.2 All water use charged - regardless of use
- 1190.26.3 Meter reading - sole evidence of water used - exception
- 1190.26.4 Property not connected to wastewater system
- 1190.26.5 Property not connected to wastewater system - notice
- 1190.26.6 Water not supplied - wastewater service connected
- 1190.26.7 Occupancy - prior to meter install - fee calculated
- 1190.26.8 Property without meter - flat rate - conditional
- 1190.26.9 Flat rate adjustment - retroactive - by Treasurer
- 1190.26.10 Meter failure - estimated charge applied
- 1190.26.11 Early payment - discount
- 1190.26.12 Water supplied to multiple uses - one meter
- 1190.26.13 Billing calculation error - retroactive recalculation
- 1190.26.14 Billing - readjusted - decision of Treasurer - final
- 1190.26.15 Water billing - to occupant- upon request - conditions

Article 27

FINAL BILLING

- 1190.27.1 Customer to vacate - reading notice - five days in advance
- 1190.27.2 Request for reading - received between regular readings
- 1190.27.3 Water billing - calculation from last reading
- 1190.27.4 Notice of request for final billing - not received
- 1190.27.5 Ownership - occupancy changes - not retroactive

WATER - WASTEWATER

- 1190.27.6 Request for billing certificate - permitted - at any time
- 1190.27.7 New occupancy - notification requirement
- 1190.27.8 New account fee - change of occupancy
- 1190.27.9 New account fee - not applicable to builders - exception
- 1190.27.10 Final billing - outstanding charge - lien on property

Article 28 METER TESTING

- 1190.28.1 Meter - less than 20 mm - removal - fee
- 1190.28.2 Meter - 20 mm - tested on site - fee
- 1190.28.3 Meter - exceeding 20 mm - not tested on site - fee
- 1190.28.4 Meter tested - found correct - charge to owner
- 1190.28.5 Meter tested - found inaccurate - credit issued
- 1190.28.6 Reductions - less than average consumption - prohibited
- 1190.28.7 Reduction prohibited - owner - occupant non complying

Article 29 COLLECTIONS

- 1190.29.1 Dishonoured cheque - payment - service charge
- 1190.29.2 All fees - charges - paid by owner - occupant
- 1190.29.3 Non payment - water shut off
- 1190.29.4 Non payment - notice issue - posted - prior to shut off - fees
- 1190.29.5 Payment within seven days of notice - water shut off
- 1190.29.6 Payment - in person - upon final notice
- 1190.29.7 Payment due transferred to property taxes - upon request
- 1190.29.8 Multiple uses - non payment - water shut off
- 1190.29.9 Water turned off - delinquent rate paid - water turned off
- 1190.29.10 Water turned on - order by Regional Health Department
- 1190.29.11 Water turned on - by authorized person only
- 1190.29.12 Water shut off fees - charges - to remain collectable

WATER - WASTEWATER

- 1190.29.13 Fees - charges - considered a lien on property
- 1190.29.14 Waiving charges - no waiver for usage - credit

Article 30 DISCONTINUANCE OF USE OF WATER

- 1190.30.1 Notice to Town - by customer

Article 31 DISCONNECTION OF WATER SERVICE

- 1190.31.1 Upon request watermain plugged - cost to owner

Article 32 RESPONSIBILITIES OF PROPERTY OWNER

- 1190.32.1 Meter - fixtures - accessible at all times
- 1190.32.2 Owner's systems - maintained - in good repair - at all times
- 1190.32.3 System - meter - protected from frost
- 1190.32.4 Losses by leaks - owner responsibility
- 1190.32.5 Vacant property - water shut off - drained - responsibility
- 1190.32.6 Water shut off - owner request in writing - fee
- 1190.32.7 Vacant property - leaking - Town not liable
- 1190.32.8 Vacant property - leaking - water shut off
- 1190.32.9 Thawing frozen pipes - owner responsibility - expense

Article 33 PROHIBITIONS

- 1190.33.1 Hindrance - interruption - of Town workers
- 1190.33.2 Meter tampering
- 1190.33.3 Discharge water - wilfully wasting
- 1190.33.4 Use of water - other than permitted
- 1190.33.5 Hydrant - stopcock - tampering - obstruction
- 1190.33.6 Deposit - injurious - offensive material in system
- 1190.33.7 Meter alteration - to lessen amount charges

WATER - WASTEWATER

1190.33.8 Water pipe connection - to obtain water without consent

Article 34 ENFORCEMENT

- 1190.34.1 Entry for inspection permitted - at all reasonable times
- 1190.34.2 All water used to pass through meter - exception
- 1190.34.3 Non payment - water shut off - authority
- 1190.34.4 Water turned on - only when fully compliant
- 1190.34.5 Fine for contravention
- 1190.34.6 Order - prohibiting continuation - repetition of offence
- 1190.34.7 Liability - loss - damage- injury to system
- 1190.34.8 Wilful - malicious damages - liability - fees
- 1190.34.9 Obstruction - removal of Town property - fine
- 1190.34.10 Separate offence - daily

Article 35 REPEAL - ENACTMENT

- 1190.35.1 By-law - previous
- 1190.35.2 Effective date

WHEREAS pursuant to the *Municipal Act, 2001*, S.O. 2001, c. 25, subsection 11 (2), as amended, the Town of Richmond Hill (hereafter referred to as the Town) is assigned non-exclusive jurisdiction over water distribution within the Town;

AND WHEREAS the Town operates and maintains a municipal waterworks and wastewater system within its municipal boundaries;

AND WHEREAS the Council of the Town deems it expedient to make certain rules and regulations concerning the said waterworks and wastewater system, in accordance with the *Municipal Act, 2001*;

AND WHEREAS pursuant to section 80 of the *Municipal Act, 2001*, a municipality may at reasonable times enter on land to which it supplies a public utility, to inspect, repair, alter or disconnect the service pipe, wire, machinery, equipment and other works; to inspect, install, repair, replace

or alter a public utility meter and for such purposes, to shut off or reduce the supply of the public utility to the land; and, if a customer discontinues the use of a public utility on land or the municipality lawfully decides to cease supplying the public utility to land, to shut off the supply of the public utility; remove any property of the municipality or determine whether the public utility has been or is being unlawfully used;

AND WHEREAS pursuant to section 81 of the *Municipal Act, 2001*, a municipality may shut off the supply of a public utility to land if fees and charges payable by the owners or occupants of the land for the supply of the public utility are overdue, subject to the municipality providing reasonable notice of the proposed shut-off to the owners and occupants of the land by personal service or prepaid mail or posting the notice on the land in a conspicuous place:

Article 1 INTERPRETATION

1190.1.1 Automatic meter reading device - defined

“automatic meter reading device” shall mean the device installed at a separate location from the meter and used to record the consumption reading of the meter.

1190.1.2 Building defined

“building” shall mean a structure supplied with water by the Town of Richmond Hill.

1190.1.3 Chief Building Official - defined

“Chief Building Official” shall mean the Chief Building Official of the Corporation of the Town of Richmond Hill or his or her delegate(s).

1190.1.4 Condominium - defined

“condominium” shall mean all residential or non-residential properties with more than one unit and each unit may be separately owned.

1190.1.5 Contractor - defined

“contractor” shall mean a person, partnership, or corporation who contracts to undertake the execution of work authorized by the owner or the Town to install or maintain watermains, service watermains, meters, services, hydrants and other appurtenances.

1190.1.6 Council - defined

“Council” shall mean the Council of The Corporation of the Town of Richmond Hill.

1190.1.7 Cross connection - defined

“cross connection” shall mean any temporary, permanent or potential water connection that may allow backflow of contaminants, pollutants, infectious agents, other material or substance that will change the water quality in the waterworks distribution system, includes: swivel or change-over devices, removable sections, jumper connections and bypass arrangements.

1190.1.8 Customer - defined

“customer” shall mean any person who takes water from the Town or receives water related services from the Town.

1190.1.9 Developer - defined

“developer” shall mean the builder, owner or party specifically named in a development agreement or in a subdivision agreement.

1190.1.10 Emergency - defined

“emergency” shall mean a situation or impending situation that could cause damage to persons or property. By-law 2-06, 11 January, 2006.

1190.1.11 Engineer - defined

“Engineer” shall mean the Commissioner of Engineering and Public Works or his or her authorized deputy or representative. By-law 31-07, 26 February, 2007.

1190.1.12 Meter - defined

“meter” shall mean the water meter and all equipment, cabling and automatic meter reading devices supplied and owned by the Town, however, funded, to measure the quantity of water used by the customer for billing purposes.

1190.1.13 Meter chamber - defined

“meter chamber” shall mean any exterior chamber or pit approved by the Engineer and maintained by the owner for the purpose of containing a meter.

1190.1.14 Meter services - defined

“meter services” shall mean all services relating to the installation, inspection, maintenance, repair, replacement, testing and reading of the meter.

1190.1.15 Property - defined

“property” includes both public and private lands, building, structures, boats, vehicles, railway cars or mobile homes located in the Town and which may be entitled to a water service.

1190.1.16 Occupant - defined

“occupant” shall include any lessee, tenant, inmate, owner, the agent of a lessee, tenant or owner, or any person in possession of a property.

1190.1.17 Owner - defined

“owner” shall include any person or any firm or corporation that is the registered owner of the property under consideration or any agent thereof, a person entitled to a limited estate in land, a trustee in whom land is vested, a committee of the estate of a mentally incompetent person, an executor, an administrator or a guardian.

1190.1.18 Plumbing - system - defined

“plumbing system” shall mean the system of connected piping, fittings, valves, equipment, fixtures and appurtenances contained in plumbing that begins, is located and is connected immediately before and after the meter.

1190.1.19 Potable water - defined

“potable water” shall mean water that is fit for human consumption.

1190.1.20 Private water service - defined

“private water service” shall mean a pipe connected to a water service and installed on private property for the purpose of supplying any property in the Town with water.

1190.1.21 Shut-off valve - defined

“shut-off valve” shall mean the valve on the water service owned and used by the Town to shut off or turn on the water supply from the Town’s waterworks distribution system to any property by way of the private water service.

1190.1.22 Town - defined

“Town” shall mean The Corporation of the Town of Richmond Hill and its employees.

1190.1.23 Treasurer - defined

“Treasurer” shall mean the Treasurer of The Corporation of The Town of Richmond Hill or his or her delegate(s).

1190.1.24 Unit - defined

“unit” shall mean a residential, commercial or industrial establishment which is separated or is capable of being separated from another establishment on the assessment roll.

1190.1.25 Wastewater rate - defined

“wastewater rate” shall mean a charge for the operation and maintenance of the wastewater system and the purchase of wastewater services applied to the metered usage of water and shall include a charge for depreciation, deferred maintenance, or a reserve fund for any such purpose permitted by by-law as deemed expedient by Council. The rate may include a charge for the capital cost of the wastewater system and alterations or extensions to it which includes a debt charge but does not include charges imposed under the *Municipal Act, 2001* for local improvements.

1190.1.26 Water - defined

“water” shall mean potable water supplied by the Town.

1190.1.27 Watermain - defined

“watermain” shall mean every water pipe, except services and portions of private water services as herein defined, installed on the public road allowance or on any other land upon which the Town has obtained easements.

1190.1.28 Water service - defined

“water service” shall mean the pipe and fittings owned by the Town which conveys potable water from a water distribution system established by the Town and situated between the connection on a watermain and the street line.

1190.1.29 Waterworks distribution system - defined

“waterworks distribution system” shall mean any works for the collection, supply and distribution of water, or any part of any such works, but does not include plumbing to which the *Building Code Act, 1992*, or any amendments thereto apply.

1190.1.30 Wastewater system - defined

“wastewater system” shall mean the buildings, structures, plant, machinery, equipment, appurtenances, devices, conduits, outlets, underground pipelines, and installations and other works designated for the collection and transmission of domestic, commercial and/or industrial wastewater and includes lands appropriated for such usage but does not include plumbing to which the *Building Code Act, 1992*, or any amendments thereto apply.

Article 2 DUTIES OF ENGINEER

1190.2.1 Distribution system - maintenance - management

For the purpose of this Chapter the Engineer’s duties shall be to generally operate, manage and supervise the waterworks distribution system and the wastewater system owned by the Town.

1190.2.2 Enforcement - provisions of Chapter

For the purpose of this Chapter the Engineer's duties shall be to enforce the provisions of this Chapter other than those dealing with meter services and the billing and collection of water and wastewater related charges.

1190.2.3 Other duties - as set out by Council

For the purpose of this Chapter the Engineer's duties shall be to perform such other duties as may from time to time be given to him or her by the Council.

Article 3**DUTIES OF THE TREASURER****1190.3.1 Meter services - billing - collection - management**

For the purpose of this Chapter the Treasurer's duties shall be to generally operate, manage and supervise meter services and the billing and collection of water and wastewater related charges.

1190.3.2 Enforcement - meter services

For the purpose of this Chapter the Treasurer's duties shall be to enforce the provisions of this Chapter relating to meter services and billing and collection of water and wastewater charges.

1190.3.3 Other duties - as set out by Council

For the purpose of this Chapter the Treasurer's duties shall be to perform such other duties as may from time to time be given to him or her by the Council.

Article 4**APPOINTMENT OF OTHER OFFICERS****1190.4.1 Council authority**

The Council may from time to time appoint or engage other officers or members of the Town as and when it is deemed necessary by the Council to do so.

Article 5**RULES AND REGULATIONS****1190.5.1 Set out - this Chapter**

The rules and regulations set out in this Chapter shall govern and regulate the operation of the waterworks distribution system in the Town and the supply of water by the Town.

1190.5.2 Water supply user - bound by rules - regulations

Every such owner by applying for or accepting a supply of water from the Town shall be deemed to have expressed his or her consent to be bound by the said rules and regulations.

Article 6**WATER SHUT OFF FOR EMERGENCIES****1190.6.1 Engineer's discretion**

The Engineer may, in the case of an emergency, or if he or she has knowledge of a substantial defect in the private water service or if he or she has reason to believe that the water supplied does not meet the water quality standards, shut off or reduce the water supply to a property and the Town shall not be liable for any damages of any kind which result therefrom.

1190.6.2 Notice - reasonable - to users

Where practicable, the Town will provide reasonable notice of such shut off or reduction of water supply.

1190.6.3 Water turned on - when problem rectified

The Engineer will turn on the water supply once it has been satisfied that the reason for the shut off has been rectified.

Article 7**RIGHTS OF ENTRY TO PRIVATE PROPERTY****1190.7.1 Notice - prior to entry - exception**

Except in the case of emergency, the Engineer, Town or their contractors shall give reasonable notice prior to entering any property.

1190.7.2 Access - permitted - to all properties at reasonable times

The Engineer, Town and their contractors shall be given free access, at all reasonable hours upon identifying himself or herself, to all parts of every property to which the water is supplied, for the purpose of the installation, inspection, alteration or maintenance of the meter and for the connection, inspection, alteration, maintenance or disconnection of any fixtures, connections, service pipes or wires and any other works relating to the supply of water or for the use of water on such property.

1190.7.3 Shut off - upon reasonable notice - Town not liable

The Engineer may, upon reasonable notice, shut off the water supply for any necessary inspection, installation, construction, alterations, maintenance or disconnection of the meter or water service and the Town shall not be liable for any damages whatsoever caused by the shutting off or the reduction of supply of water.

1190.7.4 Access denied - water shut off - fee

Where access is not provided, the Town may shut off the supply of water to the property until such time as the access is provided and the delinquent rate for turning water on and off as specified in Chapter 684 [Tariff of Fees] shall be applied to the account.

1190.7.5 Notice - written - posted - requirement - prior to shut off

For the purpose of Section 1190.7.4 prior to shutting off the water the Town shall:

- (a) issue the owner at least one written notice allowing a minimum of fourteen calendar days to provide access during normal business hours or as otherwise acceptable to the Engineer or Town contractor;
- (b) post a notice in a conspicuous place at the property notifying the occupants of the date of shut off for not providing access to the property. A charge as specified in Chapter 684 [Tariff of Fees] shall be applied to the account for posting this notice.

Article 8**UNAUTHORIZED OPERATION OR INTERFERENCE OF WATERWORKS****1190.8.1 Prohibited - offence**

No person other than a person authorized by the Town for that purpose shall open or close a valve in the waterworks distribution system, or remove, tamper with or in any way interfere with any valve, hydrant, gate, meter, structure, watermain or water service in the waterworks distribution system.

1190.8.2 Shut off valve - clear - accessible - at all times

All shut-off valves must be left clear and accessible at all times so that the water in the water service pipe and private water service may be turned off or on as may be found necessary by the Engineer.

Article 9**UNAUTHORIZED INTERFERENCE WITH METER****1190.9.1 Prohibited - offence**

No person, except a person authorized by the Town for that purpose, shall be permitted to open, or in any way whatsoever to tamper with any meter, or with the seals placed thereon, or do any manner of thing which may interfere with the proper registration of the quantity of water passing through such meter.

1190.9.2 Shut off - service suspended - until approved by Engineer

Should any person change, tamper with or otherwise interfere, in any way whatsoever, with any meter placed in any building, the Engineer may forthwith, upon providing reasonable notice, shut off the water from such building or property, and the water shall not be turned on to such building or property without the express consent of the Engineer and the delinquent rate for turning water on and off as specified in Chapter 684 [Tariff of Fees] shall be applied to the account.

Article 10**INSTALLATION OF WATER SERVICES****1190.10.1 Written application - uses specified**

All persons applying for the installation of a new water service from the Town shall first make written application to the Engineer, showing the several and various purposes for which water is required, and shall sign the form or agreement provided by the Town.

1190.10.2 Application - signed

The application and agreement shall be signed by the owner of the building to be supplied with water, or by his or her agent, duly authorized in writing.

1190.10.3 Installation rate - fixed - how calculation

In order that a uniform rate shall be charged for the installation of water service a fixed rate shall be established by Council which shall be the equivalent to the cost of the installation calculated as if the watermains in the Town were laid in the centre of the streets.

1190.10.4 Fee - payment - upon application

At the time of application for a supply of water the person shall pay to the Treasurer the charge for installing the necessary water service as specified in Chapter 684 [Tariff of Fees].

1190.10.5 Fee - not specified - deposit upon application

Persons making application for the installation of water services for which a sum is not specified in Chapter 684 [Tariff of Fees], shall at the time of application, deposit with the Treasurer a sum of money estimated by the Engineer to be the cost of providing such water services.

1190.10.6 Application - approval denied - authority

The Engineer shall have authority to approve or deny any application for the installation of water services.

1190.10.7 Application denied - appeal to Council

If for any reason the Engineer does not approve of an application, the applicant may apply to Council for consideration and the decision of Council shall be final.

1190.10.8 Application approved - upon terms - conditions

Where approval is granted by the Engineer or the Council for the installation of a water service, it shall be installed upon such terms and conditions as the Engineer or Council may deem necessary.

1190.10.9 Single service - each building - exception

Not more than one building shall be supplied from a single water service unless approved by the Engineer.

1190.10.10 Separate curb stop - each building

A separate curb stop shall be installed for each building in every case.

1190.10.11 Multiple buildings - single lot - single service - conditional

Where a building occupies the frontage of a lot and one or more buildings are located in the rear of the said front building, all such buildings shall be supplied from one water service provided that all said buildings belong to one owner.

1190.10.12 Application approved - fees paid - service installed

After an application has been approved by the Engineer and the payments referred to in the preceding Sections have been made to the Treasurer, the Engineer shall install the necessary water services.

1190.10.13 Installation approval - authorized persons only

Water services shall be installed only by persons employed by the Engineer or designated by him or her, except in new land development projects where agreements with the Town require the developer or subdivider to complete such works.

1190.10.14 Construction - requirements - standards

All water services located on public or private property shall be constructed in accordance with the Ontario Building Code as revised from time to time and in accordance with good engineering practices and shall be approved by the Chief Building Official. Where the Ontario Building Code is silent, the Town's standards shall be applied and shall prevail.

1190.10.15 Service - less than 100 mm - seamless copper

All water services less than 100 mm (3.94 inches) in internal diameter shall be of seamless copper tubing.

1190.10.16 Pipe fittings - specifications

All such pipe and fitting used for water services shall be of such weight and other specifications as the Engineer may direct. The minimum diameter of water services shall be 20mm (.79 inches).

1190.10.17 Services installed - application for water supply

Where the necessary water services and private water services have already been installed, the cost of such installation is fully paid, the owner shall make an application to the Treasurer for the supply of water to the building.

Article 11**INSPECTION OF WATER SERVICE****1190.11.1 Required - all installations - fee**

All water service pipes and appurtenances installed, including those required by a Town subdivision or development agreement must be inspected by the Town as specified in the Town's standards, the charge for such inspections shall be as specified in Chapter 684 [Tariff of Fees].

Article 12**MAINTENANCE OF WATER SERVICES****1190.12.1 Maintenance - cost - paid by Town**

The cost of maintaining water services and of keeping the same in repair shall be paid by the Town.

1190.12.2 Shut off - as necessary - for work - repairs - emergency

Except in the case of an emergency, when making repairs or constructing new work in connection with the waterworks distribution system, the Engineer, upon reasonable notice may shut off the water from any consumer and keep it shut off as long as may be necessary and the Corporation shall not be liable for any resulting damage.

1190.12.3 Supply - maintained - with reasonable diligence

The Town agrees to use reasonable diligence in providing a regular and uninterrupted supply of water, but does not guarantee a constant service or the maintenance of unvaried pressure or supply of water and is not liable for any damages suffered by any customer caused by the breaking of any water service pipe or attachment, or for shutting off of water to repair watermains or to tap watermains.

Article 13
PRIVATE WATER SERVICES

1190.13.1 Installation - by property owner

All private water services shall be installed by the owners of the property for which such private water services are required, or their agents.

1190.13.2 Plumbing system - designed to incorporate meter

The plumbing system shall be designed so that all water used on such property shall pass through the meter.

1190.13.3 Space provided - for all meters - location

In all cases sufficient space shall be allowed on the horizontal pipe for installation of the meter.

1190.13.4 Automatic meter reading device - placed as directed

Every meter and automatic meter reading device shall be placed in such location as the Engineer may direct.

1190.13.5 Automatic reading device - installed by Town - exception

The meter and automatic meter reading device for all services shall be supplied and installed by the Town unless otherwise provided by agreement, and shall remain the property of the Town, however funded.

1190.13.6 Construction - standards

All private water services located on private property shall be constructed in accordance with the Ontario Building Code as revised from time to time and in accordance with good engineering practices and shall be approved by the Chief Building Official. Where the Ontario Building Code is silent the Town's standards shall be applied and shall prevail.

1190.13.7 Private system - capable of being completely drained

Private water services shall be properly laid and graded with a fall to an inlet valve and waste cock placed in the floor in the cellar, basement or other convenient place so that all pipes within the building may be emptied by closing the shut off valve, opening the waste cock and opening the faucet at the highest point therein and allowing air to enter the said pipe.

1190.13.8 Building with no basement - inlet - shut off placement

In any buildings to where there is no basement or cellar the inlet valve and waste cock shall be placed so that it is protected from frost and so that the pipes may be conveniently drained and the pipes shall be carried to or near the centre of the building or to an unexposed part previous to being carried upward.

1190.13.9 Meter damage - owner responsibility

All damage to the meter due to frost, poor workmanship, carelessness or any other reason shall be the responsibility of the owner and shall be repaired and paid for by the owner of the subject property.

1190.13.10 Meter - outside building - meter chamber - required

Where a meter cannot conveniently be placed inside a building the meter for such property shall be placed in a meter chamber, the location and construction of which shall be specified and approved by the Engineer.

Article 14**WATER SUPPLY FOR BUILDING PURPOSES****1190.14.1 Application - separate - for each building**

Builders requiring water for building purposes shall make a separate application for each building to be erected and shall furnish the Engineer with all information required by him or her.

1190.14.2 Temporary water charge - payment requirement

The builder shall pay to the Treasurer the Temporary water charge as specified in Chapter 684 [Tariff of Fees].

1190.14.3 Permit - expiry

A permit for the use of water for building purposes shall be valid from the date of the building permit until the date the meter is installed or for a period of up to six months whichever comes first.

Article 15**NOTICE FOR INSPECTION****1190.15.1 Chief Building Official**

The Chief Building Official shall be notified by the owner of the property when a private water service has been laid and is ready for inspection.

1190.15.2 Other authorities having jurisdiction

The provisions of Section 1190.15.1 shall in no way be interpreted as an approval from any other authority having jurisdiction over these works.

1190.15.3 Work left uncovered - until approved

All works shall be left uncovered and convenient for examination until inspected and approved.

1190.15.4 Inspection - upon notice - within two days

The inspection shall be made within two working days after receipt of notice provided notice is provided prior to twelve o'clock noon.

1190.15.5 Inspection - immediate - due to soil conditions

When the soil is of such nature that it cannot be left open for two days, the inspection shall be made forthwith.

1190.15.6 Supply not turned on - until inspected - approved

No water supply shall be turned on until the work is inspected and approved by the Chief Building Official.

1190.15.7 New construction - not occupied prior to inspection

Newly constructed properties shall not be occupied prior to the private water service installation inspection and approval by the Chief Building Official.

Article 16**WATER FOR FIRE EXTINCTION****1190.16.1 Separate and distinct system - requirement**

Equipment installed solely for the automatic extinction of fires in buildings may, with the approval of the Engineer, be attached to watermains provided that such equipment is entirely disconnected from water pipes used for any other purpose, and water supplied through such equipment is used solely for the purpose of fire extinction.

1190.16.2 Shut off valve - outside building - Town use only

All such equipment must be provided with a suitable valve outside the building and under the exclusive control of the Town.

1190.16.3 Fire rated meter - requirement

The Town may require a fire-rated meter of approved specifications to be installed and maintained by the owner, lessee or agent.

1190.16.4 Use of water - other than specified - prohibited

Any water supplied or made available for any land or building for purposes of protection of property or persons from fire or for preventing fires or the spreading of fires shall not be used for any other purpose.

Article 17**USE OF WATER FROM FIRE HYDRANTS****1190.17.1 Other uses of water - approval required**

Except for water used for fire extinction, any other use of a Town's fire hydrant for water supply must be approved by the Engineer and must be metered by a hydrant meter supplied by the Town.

1190.17.2 Water use - consumption charge

Authorized use of water from a fire hydrant shall be charged on a consumption basis at the rate specified in Chapter 684 [Tariff of Fees].

1190.17.3 Operation - fire hydrant - authorized person only

No person other than a person authorized by the Engineer for that purpose shall be permitted to open or otherwise interfere with or operate or take water from any fire hydrant.

Article 18**MAINTENANCE OF PRIVATE WATER SERVICES****1190.18.1 Maintained - working - in good repair - by owner**

The owner of any property into which a private water service is laid shall maintain in proper working order and good repair, at its own expense, the private water services, plumbing system and all its fixtures and appurtenances.

1190.18.2 Inlet valve - maintained - owner responsibility

The owner shall be responsible for maintaining in proper working order and good repair, the inlet valve before the meter.

1190.18.3 Defects - repaired by owner

Any and all defects to the private water service and meter chambers shall be repaired by the owner of the property being serviced.

1190.18.4 Water shut off - at Town's discretion - defective system

In accordance with Section 1190.6.1, should the Town become aware of any substantial defect, the Town at its discretion may turn off the water supply to the property. The Town will turn on the water supply once it has been satisfied that the defect has been rectified. The turning on of the water supply is subject to the rates as specified in Chapter 684 [Tariff of Fees].

Article 19**WATER SUPPLY****1190.19.1 Turned on - after inspection approval - payment of fees**

When the necessary water services and private water services have been completely installed to the satisfaction of the Engineer and in compliance with the provisions of this Chapter and the payments required by this Chapter have been made to the Treasurer, the Engineer shall turn on the water for supply to the property.

1190.19.2 Water use - other than permitted

No person supplied with water by the Town shall be entitled to use such water for any purpose other than those stated in the application.

Article 20
CONNECTIONS TO WATER SERVICES
OR PRIVATE WATER SERVICES

1190.20.1 Connections - with written consent only

No person shall make any connection or connections whatsoever to any water service or private water service without the written consent of the Engineer.

1190.20.2 Unlawful connection - fees estimated use - other penalties

The owner of the property on which an unlawful connection has been made shall pay the water and wastewater rates as estimated by the Town in addition to being liable for any other penalty provided by this Chapter or any other legislation.

1190.20.3 Connection - other than through meter - prohibited

No person shall under any circumstances connect any faucet, tap, hydrant or appliance of any kind whatsoever to any water service or private water service so as to use water which has not passed through the meter except as provided in Article 10 - Installation of Water Services.

Article 21
PROTECTION FROM CONTAMINATION

1190.21.1 Connection - improper - prohibited

No person shall connect, cause to be connected, or allow to remain connected to the waterworks distribution system any piping, fixture, fitting, container or appliance, in a manner which under any circumstances, may allow water, wastewater, non-potable water, or any other liquid, chemical or substance to enter the waterworks distribution system. The means for protection from contamination shall be in accordance with the requirements of the *Building Code Act, 1992*, as amended from time to time.

1190.21.2 Inspection - access provided - at all reasonable times

Any person authorized by the Town for the purpose of inspecting cross connections shall have free access, at all reasonable times, and upon reasonable notice given and request made, to all parts of every building or other property to which any water service is supplied.

1190.21.3 Risk of contamination - shut off - notice to comply

Notwithstanding the provisions of this Article and Article 6, where a risk of possible immediate contamination of the waterworks distribution system exists in the opinion of the Engineer or an approved authority, the Engineer may:

- (a) immediately shut off the water service or services to the property and issue an order to correct the deficiency or eliminate the threat; or
- (b) give notice to the customer to correct the fault, at his/her expense, within a specified time period and, if the notice is not complied with, the Engineer may then shut off the water service or services.

1190.21.4 Water supply - restored - upon approval - inspection

The water supply shall not be restored until the Engineer or Chief Building Official has inspected the property and private water systems.

1190.21.5 Contravention - order to comply

If a condition is found to exist which is contrary to this Article, the Town shall immediately carry out an inspection and shall issue such order or orders to the customer as may be required to obtain compliance with this Article.

1190.21.6 Cross connection control device - when required

Notwithstanding the provisions of this Article, where a risk of possible contamination of the waterworks distribution system exists in the opinion of the Engineer or an approved authority, a customer shall, upon notice from the Town, install on his/her private water service a cross connection control device.

1190.21.7 Cross connection - backflow prevention devices

Cross connection control or backflow prevention devices, when required by the Engineer, shall be installed in accordance with the Ontario Building Code and "CAN/CSA-B64.10-94 Manual for the Selection, Installation, Maintenance and Field Testing of Backflow Prevention Devices", as amended from time to time.

1190.21.8 Cross connection devices - inspected - tested - annually - fee

All cross connection control devices shall be inspected and tested at the expense of the customer, upon installation, and thereafter annually, or more often if required by the Town, by qualified personnel to carry out such tests to demonstrate that the device is in good working condition.

1190.21.9 Cross connection control device - inspection - report

The customer shall submit a report to the Engineer on any or all tests performed on a cross connection control device within fourteen days of a test, and a record card shall be displayed on or adjacent to the cross connection control device on which the tester shall record the address of the property, the location, type, manufacturer, serial number and size of the device, and the test date, the tester's initials, the tester's name (if self employed) or the name of his or her employer and the tester's licence number.

1190.21.10 Failure to test - notice - deadline - shut off

If a customer fails to have a cross connection control device tested, the Town or approved authority may notify the customer that the cross connection control device must be tested within four days of the customer receiving the notice. If the customer fails to have the device tested within the time allowed, the Engineer may shut off the water services until the cross connection control device has been tested and approved as required by this Article.

1190.21.11 Inspection finds defect - repair by owner - deadline

When the results of a cross connection control device test shows that a cross connection control device is not in good working condition, the customer shall make repairs or replace the device within four days. If a customer fails to repair or replace the device within the time allowed, the Engineer may shut off the water service until such repair or replacement has been made.

1190.21.12 Removal of cross connection devices - approval required

No person shall without the permission of the Engineer remove any cross connection control or backflow prevention devices installed as a requirement of provincial legislation notwithstanding the fact that the applicable provincial regulation has been rescinded.

Article 22 RANGE BOILERS

1190.22.1 Water shut off - Town not liable

In all cases where range or steam boilers are supplied with water the Town shall not be liable for any damage which may result to any person or property or equipment from shutting off the water from any watermain or service pipe for any purpose whatever or from the reduction or fluctuation of water pressure, notwithstanding that no prior notice was given.

1190.22.2 Prevention of water escaping back - relief valves required

All service pipe connections to boilers shall have cross connection control devices fixed to prevent water escaping back into the watermains and suitable relief valves to relieve excess pressure.

Article 23 WATER COOLED AIR CONDITIONING SYSTEMS

1190.23.1 Use - Town supplied water - restriction

No person shall use any water supplied by the Town in any air-conditioning installation whatsoever except only in those air-conditioning installations where water is only used for make-up purposes and none is permitted to run to waste.

1190.23.2 Maximum capacity - no cooling water running to waste

Any business operation requiring cooling, climatization or air-conditioning on a year-round basis as an integral part of their operation may use water cooled air-conditioning systems as long as the said system or systems do not exceed 5-ton capacity, and that no cooling water runs to waste.

Article 24**WATER METER INSTALLATION****1190.24.1 Required - all water services**

All water supplied to each building through a private water service shall be separately metered and have remote reading devices installed for collecting meter reads.

1190.24.2 One meter - each building

Not more than one meter shall be placed in each commercial building, industrial building, condominium, apartment house or other structure.

1190.24.3 Cost paid - prior to installation - meter Town property

The cost of installing meters including the cost of such meter shall be pre-paid by the owner before the meter is installed and the meter shall remain the property of the Town.

1190.24.4 Meter - installed - prior to occupancy

All meters shall be furnished and installed by the Town or their contractors before the properties are occupied.

1190.24.5 Meter installed - plumbing incomplete - additional charge

If a request is made to the Town to install a meter and the plumbing has not been completed in accordance with Ontario Provincial Standard (OPS), a plumbing not ready charge in the amount specified in Chapter 684 [Tariff of Fees] shall be applied.

1190.24.6 Remote reading device - use - other conditions

If the standard remote reading device cannot be installed, for any reason, the owner shall pay for a radio frequency reading device or be subject to an annual charge as set out in Chapter 684 [Tariff of Fees] for taking a meter read directly from the meter. If the owner chooses to have the meter read on an annual basis, quarterly bills between annual meter readings shall be based on reads called in by the owner or consumption estimated by the Town.

1190.24.7 Meter stolen during construction - replacement - cost

If a meter is stolen from a property during construction, a new meter shall be installed upon request and the cost of the supply and installation shall be added to the water account.

1190.24.8 Meter installation request by Town - not responded to

If an owner does not respond to requests made by the Town to install a meter the water supply may be turned off until such time as the owner makes suitable arrangements to have the meter installed. The charges set out in Chapter 684 [Tariff of Fees] for turning the water on and off for delinquent account shall apply.

Article 25**METER REPAIRS AND MAINTENANCE****1190.25.1 Cost paid by Town - exception**

The entire cost of maintaining and repairing meters shall be paid for by the Town unless such meter is damaged by the carelessness or neglect of the owner or occupant of the property on which such meter is installed and in that event the owner of the property shall pay to the Town the cost of making the necessary repair to such meter.

1190.25.2 Access to meter denied - water shut off - fee

If an owner does not respond to requests made by the Town to gain access to the meter for any reason, the water supply may be turned off until such time as the owner makes suitable arrangements to have the meter inspected, repaired or installed. The charges specified in Chapter 684 [Tariff of Fees] for turning the water on and off for delinquent accounts shall apply.

1190.25.3 Meter removal for testing - system modification

If, in the opinion of the Town, or their contractor, the condition of the private water service and inlet valves and of the plumbing system on such piping is such that the meter cannot be safely removed for the purpose of testing, replacing, repairing or testing in place without fear of damage to the private water service and inlet valves, the Town may require the owner or occupant to make such repairs as may be deemed necessary to facilitate the removal or testing of the meter.

1190.25.4 Failure to repair - water shut off - fee

If, upon notification, the owner does not comply with the Town's request to make repairs in accordance with Section 1190.25.3, then the water supply to the property may be turned off at the shut-off valve during removal, replacement, repair and testing of the meter and the owner shall pay the delinquent rate for turning water on and off as specified in Chapter 684 [Tariff of Fees]. The Town shall not be held responsible for any damages to the owner's property arising from such work.

1190.25.5 Inspection - repair appointment - missed - fee

Any missed appointments for meter inspections, repairs, maintenance, or testing shall be charged a fee as specified in Chapter 684 [Tariff of Fees].

1190.25.6 Meter - replacement - relocation - changed - fee paid

If an owner requests that a meter be installed, replaced, relocated, upsized or downsized, the cost of the supply and/or install of that meter shall be the responsibility of the owner. Such cost shall be paid prior to the meter being installed or relocated in the amount specified in Chapter 684 [Tariff of Fees]. No credit value shall be granted for the meter being removed.

1190.25.7 Service requested - by owner - no malfunction - fee

If an owner requests that the meter be serviced and there is no indication of malfunction a service call fee as specified in Chapter 684 [Tariff of Fees] shall be applied to the water account.

1190.25.8 Leak - at meter - couplings - reported immediately

Any leaks that may develop at the meter or its couplings must be reported immediately to the Town.

1190.25.9 Meter not leaking - leak from other source - fee

If an owner reports that a meter or its couplings are leaking and it is either not leaking or leaking from the private water service or plumbing system, a service call fee as specified in Chapter 684 [Tariff of Fees] shall be applied to the water account.

1190.25.10 Meter services by Town only - limitation

The Town's service technicians are not permitted, licensed or insured to perform service work on the private water service or plumbing system other than the meter and its couplings.

Article 26**WATER AND WASTEWATER BILLING****1190.26.1 Based on metered water consumption**

The water and wastewater usage charges payable pursuant to this Chapter are based on metered water consumption at the rates specified in Chapter 684 [Tariff of Fees] and may be changed by Council from time to time.

1190.26.2 All water use charged - regardless of use

All water passing through a meter shall be charged for whether used or wasted.

1190.26.3 Meter reading - sole evidence of water used - exception

The reading of the meter register shall be the sole evidence of the quantity of water supplied to a property unless the meter is proven to be defective through a meter test conducted by the Town.

1190.26.4 Property not connected to wastewater system

Where a property is supplied with Town water but is not connected to the wastewater system, no wastewater rates will be applied to the metered water consumption.

1190.26.5 Property not connected to wastewater system - notice

It shall be the owner's responsibility to notify the Town that they are not connected to the wastewater system. Once notified and confirmed by inspection by the Engineer, subsequent billings will be charged using the water rates only. There will be no retroactive adjustments of billings issued prior to such notification.

1190.26.6 Water not supplied - wastewater service connected

Where a property receives wastewater services but is not supplied with Town water, the flat rate wastewater usage charge shall be billed and no water usage charge will be applied.

1190.26.7 Occupancy - prior to meter install - fee calculated

If a property is occupied prior to a meter being installed, the owner shall be retroactively charged for water and wastewater services at the flat rate specified in Chapter 684 [Tariff of Fees] back to the date of occupancy as determined by the Treasurer and the decision of the Treasurer shall be final.

1190.26.8 Property without meter - flat rate - conditional

Where a property receives water and/or wastewater services but does not have a meter, a flat rate water and/or wastewater usage charge as set out in Chapter 684 [Tariff of Fees] shall be billed. Such ongoing condition must be with the consent of the Engineer.

1190.26.9 Flat rate adjustment - retroactive - by Treasurer

The flat rate amount so billed may be retroactively adjusted upward by the Treasurer should the subsequent metered consumption indicate higher water usage than that utilized to determine the flat rate charges.

1190.26.10 Meter failure - estimated charge applied

If a meter fails to register or a read is not collected for any other reason, the customer shall be charged on the basis of a reasonable estimate as determined by the Town derived from previous consumption at the property where available.

1190.26.11 Early payment - discount

If full payment is made on or before the due date stated on the bill, an early payment discount in the amount specified in Chapter 684 [Tariff of Fees] will be granted.

1190.26.12 Water supplied to multiple uses - one meter

If water is supplied to more than one party through a single meter, the account for the water and wastewater supply shall be paid by the owner of the property.

1190.26.13 Billing calculation error - retroactive recalculation

If the Town has made a billing calculation error, the account may be retroactively recalculated for a period not exceeding one year from the date of detection with resulting credits or charges being applied to the water account.

1190.26.14 Billing - readjusted - decision of Treasurer - final

If water and wastewater charges are added or require adjustment as a result of the provisions of this Chapter not being met, the charges may be readjusted retroactively to the date at which is determined, in the opinion of the Treasurer, that the provisions were violated and the decision of the Treasurer shall be final.

1190.26.15 Water billing - to occupant- upon request - conditions

If water is supplied to only one party in a property, and the owner requests that the occupant be billed directly, the Town will do so as a convenience to the owner under the following conditions:

- (a) the owner assumes full responsibility for all charges applied to the account for the provision of water and wastewater services in the event that the occupant fails to pay;
- (b) an application be completed and signed by the owner and returned to the Town;
- (c) upon notice to the owner, the Town may at any time and for any reason discontinue billing the occupant and bill the owner directly for the water and wastewater charges of the occupant.

Article 27 FINAL BILLING

1190.27.1 Customer to vacate - reading notice - five days in advance

When a customer proposes to vacate the property supplied by water he or she shall request a final reading and billing at least five days before vacating the property to permit the reading of the meter.

1190.27.2 Request for reading - received between regular readings

If a request for a final bill is received during a period between meter readings, the billing shall be based on the quantity of water used to the time of the final reading of the meter.

1190.27.3 Water billing - calculation from last reading

The charge at the next regular billing shall be calculated on the quantity of water used during the remaining part of the billing period from the time of occupancy.

1190.27.4 Notice of request for final billing - not received

If notice for a final billing is not received by the Town, the consumption will continue to be billed in accordance with the regular billing schedule and it shall be the responsibility of the owner or their agent, to allocate the charges between themselves and the previous owner or occupant.

1190.27.5 Ownership - occupancy changes - not retroactive

Neither ownership nor occupancy changes shall be made retroactively.

1190.27.6 Request for billing certificate - permitted - at any time

An owner or their agent, may request a certificate from the Treasurer showing the amount water and wastewater charges, if any, charged against any property at any time.

1190.27.7 New occupancy - notification requirement

Any owner or occupant who commences to occupy property supplied with water and wastewater service shall forthwith notify the Treasurer so a new account can be created. At the discretion of the Town, either the last regular meter reading or a read taken within five days of notification will be used as the final/opening read.

1190.27.8 New account fee - change of occupancy

All ownership and occupancy changes shall be subject to a new account fee in the amount specified in Chapter 684 [Tariff of Fees].

1190.27.9 New account fee - not applicable to builders - exception

The new account fee does not apply to builders unless the property is occupied by the builder.

1190.27.10 Final billing - outstanding charge - lien on property

If the final billing of the previous occupant remains outstanding, such charges are a lien on the land and shall be transferred to the property tax account in accordance with the provisions of the *Municipal Act, 2001*.

Article 28 METER TESTING

1190.28.1 Meter - less than 20 mm - removal - fee

A meter not exceeding 20 mm (.79 inches) in size may be removed and tested by the Town upon request, and upon payment of a deposit equivalent to the supply and install charge for the meter and the meter testing charge as specified in Chapter 684 [Tariff of Fees].

1190.28.2 Meter - 20 mm - tested on site - fee

Meters exceeding 20 mm (.79 inches) in size may be tested upon request, on site, if possible, upon receipt of a deposit in an amount estimated by the Treasurer to represent the cost of testing. The actual amount charged shall be the cost of the meter test plus 20 per cent.

1190.28.3 Meter - exceeding 20 mm - not tested on site - fee

Meters exceeding 20 mm (.79 inches) in size that cannot be tested on site may be tested upon request and upon receipt of a deposit in an amount estimated by the Treasurer to represent the cost of the supply and install of a new meter of the same size and cost of the meter test. The actual amount charged shall be the cost of supply and install of the meter and the cost of the meter test plus 20 per cent.

1190.28.4 Meter tested - found correct - charge to owner

If meter test results indicate that the meter is found to register correctly, or that it does not exceed the American Water Works Association (AWWA) standard by three percent or more in favour of the Town, the actual cost of replacing and testing of the meter shall be paid by the person requesting that such meter be removed and tested. For meters exceeding 20mm, any discrepancy between the deposit collected for the meter test and the cost plus 20 per cent shall be applied to the water account.

1190.28.5 Meter tested - found inaccurate - credit issued

If meter test results indicate that the meter is found to register in excess of three percent over the AWWA standard in favour of the Town, the deposit shall be returned and a credit shall be applied to the water account to represent the excess billed over three percent for the previous billing period only.

1190.28.6 Reductions - less than average consumption - prohibited

No reduction shall be made which will reduce the water and wastewater charges for the prior billing period below the average level of consumption for that property.

1190.28.7 Reduction prohibited - owner - occupant non complying

No reduction, as set out in Section 1190.28.5 shall be made when the owner or occupant of the building has not complied with the provisions of this Chapter.

Article 29 COLLECTIONS

1190.29.1 Dishonoured cheque - payment - service charge

A service charge shall be applied in accordance with Chapter 684 [Tariff of Fees], if a payment is dishonoured by the bank for any reason.

1190.29.2 All fees - charges - paid by owner - occupant

Subject to Section 1190.26.15, all fees and charges relating to the supply of water and wastewater services or for any other expenses, fees or charges provided for in this Chapter shall be paid by the owner or occupant of the property.

1190.29.3 Non payment - water shut off

If the fees and charges for any reason are not paid by the owner or occupant, the municipality may shut off the supply of water to the property for non-payment.

1190.29.4 Non payment - notice issue - posted - prior to shut off - fees

Prior to turning the water off for non-payment the Town shall;

- (a) issue a reminder notice at least fourteen days following the due date;
- (b) issue a final notice at least fourteen days from the issuance of the reminder notice. If the property is tenanted, a notice shall also be sent to owner;
- (c) post a notice in a conspicuous place at the property notifying occupants of the date of shut off for non-payment at least fourteen days from the issuance of the final notice. A charge as specified in Chapter 684 [Tariff of Fees] shall be applied to the account for posting this notice.

1190.29.5 Payment within seven days of notice - water shut off

If payment has not been made within seven days of posting the notice at the property, the water supply shall be shut off for non-payment and charges for turning water on and off on delinquent accounts shall be charged as specified in Chapter 684 [Tariff of Fees].

1190.29.6 Payment - in person - upon final notice

All payments made, following the issuance of the final notice must be made at the Town of Richmond Hill offices by cash, debit card, money order or certified cheque to avoid the disconnection of the water supply.

1190.29.7 Payment due transferred to property taxes - upon request

The owner may request, in writing, that outstanding water and wastewater charges be transferred to the property tax account to avoid the disconnection of water supply.

1190.29.8 Multiple uses - non payment - water shut off

If water is supplied to more than one party through a single meter, the account for the water and wastewater supply shall be paid by the owner of the property and in the case of non-payment, the water may be shut off, notwithstanding that one or more of the parties had paid a proportion to such owner, the Town, or to any other party.

1190.29.9 Water turned off - delinquent rate paid - water turned off

When the water has been turned off by the Town for non-payment, it may not be turned back on until the delinquent rate for turning water on and off as specified in Chapter 684 [Tariff of Fees] has been paid to the Treasurer.

1190.29.10 Water turned on - order by Regional Health Department

Notwithstanding Section 1190.29.9, in the case of tenanted properties, the water supply will be turned on if the Regional Health Department issues an order that the water supply be restored and all outstanding charges shall be transferred to the property tax account and collected in the same manner as taxes including the additional reconnection fee.

1190.29.11 Water turned on - by authorized person only

Whenever water has been turned off for non-payment of the water charges or for purposes of repair or construction or for any other necessary or proper purpose, no person will be permitted to turn it on again who is not duly authorized to do so by the Engineer.

1190.29.12 Water shut off fees - charges - to remain collectable

Despite shutting off the supply of water, all fees and charges shall remain collectable.

1190.29.13 Fees - charges - considered a lien on property

All fees charged under this Chapter are deemed to represent the cost of providing water and wastewater services and therefore are considered a lien on the land. By-law 2-06, 11 January, 2006.

1190.29.14 Waiving charges - no waiver for usage - credit

If it is determined to be in the best interest of the Town when attempting to resolve a billing dispute, the Treasurer may:

- (a) waive part or all of any fees, charges or expenses set out in Schedule A of Chapter 684 (Tariff of Fees) for water services and wastewater services, other than those charges for water and wastewater useage as described in Article 26 of this Chapter; and/or
- (b) apply a credit to the water account. By-law 65-07, 7 May, 2007.

Article 30
DISCONTINUANCE OF USE OF WATER

1190.30.1 Notice to Town - by customer

Any customer wishing to discontinue the use of water supplied from the Town's waterworks distribution system, must give notice thereof at the Treasurer's office, or the water and wastewater charges will continue to be calculated in accordance with this Chapter until such notice is given or until the water is turned off.

Article 31
DISCONNECTION OF WATER SERVICE

1190.31.1 Upon request watermain plugged - cost to owner

The water service must be disconnected at the watermain by the Town or their contractor, the watermain plugged, and the curb box and rod removed at the owner's expense. All work must be inspected by the Town, and the charge for such work and inspection is as specified in Chapter 684 [Tariff of Fees].

Article 32
RESPONSIBILITIES OF PROPERTY OWNER

1190.32.1 Meter - fixtures - accessible at all times

It is the owner's responsibility to ensure that all meters, fixtures and pipes of every kind used in connection with the supply of water are readily accessible and free from obstruction at all times.

1190.32.2 Owner's systems - maintained - in good repair - at all times

It is the owner's responsibility to maintain in proper working order and good repair, at its own expense, the private water services, plumbing system, inlet valve and all its fixtures and appurtenances.

1190.32.3 System - meter - protected from frost

All private water service including the meter shall be properly protected from frost and any other damage at the expense and risk of the owner of the property being serviced. By-law 2-06, 11 January, 2006.

1190.32.4 Losses by leaks - owner responsibility

The owner shall be responsible for the water loss caused by a leak in the private water service and/or plumbing system. The charge for water loss caused by the private water service shall be determined by the Engineer and the charge for water loss caused by the plumbing system shall be determined by the water meter. All charges shall be paid by the owner upon demand by the Town, and the Town shall not be held responsible for any damages arising from such leakage. By-law 65-70, 7 May, 2007.

1190.32.5 Vacant property - water shut off - drained - responsibility

When any property is left vacant or without heat, it is the owner's responsibility to shut off the water supply from within the property and to drain the piping therein.

1190.32.6 Water shut off - owner request in writing - fee

The owner or occupant may apply in writing to the Town to have the shut-off valve turned off to stop water supply. The valve will be turned on only at the owner's request and in the owner's presence. The owner shall pay for this service at the rate as specified in Chapter 684 [Tariff of Fees].

1190.32.7 Vacant property - leaking - Town not liable

When any property left vacant, unattended or without heat, where the water supply has not been shut off, suffers damage to it and its contents from a leaking or burst water pipe, neither the owner nor occupant shall have a claim against the Town.

1190.32.8 Vacant property - leaking - water shut off

Should the Engineer become aware of such leaking or burst pipes, the Engineer shall turn off the shut-off valve, and the water supply shall not be turned on until the Engineer, in his/her discretion, shall consider it advisable. The owner shall pay for this service at the rate as specified in Chapter 684 [Tariff of Fees].

1190.32.9 Thawing frozen pipes - owner responsibility - expense

Thawing out frozen private water services shall be the owner's responsibility and expense. Where any employee of the Town assists the owner in the thawing of frozen pipes on the owner's property, all such assistance work will be considered to be at the owner's risk, and the owner shall have no claim against the Town by reason of such work.

Article 33 PROHIBITIONS

1190.33.1 Hindrance - interruption - of Town workers

No person shall willfully hinder or interrupt, or cause or procure to be hindered or interrupted, the Town or any of its officers, contractors, agents, servants or workers, in the exercise of any of the power conferred by this Chapter.

1190.33.2 Meter tampering

No person shall tamper with or otherwise interfere, in any way whatsoever, with any meter placed in any building.

1190.33.3 Discharge water - wilfully wasting

No person shall willfully let off or discharge water so that the water runs waste or useless out of the works.

1190.33.4 Use of water - other than permitted

No person shall being an owner or occupant or other supplied with water from the waterworks distribution system, improperly waste the water or, without the consent of the Town, lend, sell, or dispose of the water, give it away, permit it to be taken or carried away, use or apply it to the use or benefit of another, or to any use and benefit other than his or her own.

1190.33.5 Hydrant - stopcock - tampering - obstruction

No person shall without lawful authority, willfully open or close any valve or hydrant, or obstruct the free access to any hydrant, stopcock, valve, chamber or pipe by placing on it any building material, rubbish or other obstruction.

1190.33.6 Deposit - injurious - offensive material in system

No person shall throw or deposit any injurious or offensive matter into the water, waterworks distribution system or wastewater system, or upon the ice if the water is frozen, or in any way foul the water or commit any willful damage or injury to the works, pipes or water, or encourage the same to be done.

1190.33.7 Meter alteration - to lessen amount charges

No person shall willfully alter any meter placed upon any service pipe or connected therewith, within or without any building or other place, so as to lessen or alter the amount of water registered.

1190.33.8 Water pipe connection - to obtain water without consent

No person shall lay or cause to be laid any pipe or watermain to connect with any pipe or watermain of the waterworks, or in any way obtain or use the water without the consent of the Engineer.

Article 34 ENFORCEMENT

1190.34.1 Entry for inspection permitted - at all reasonable times

The Engineer may, at all reasonable times, enter and inspect a property to determine whether there is any unlawful use of the waterworks distribution system.

1190.34.2 All water used to pass through meter - exception

All water used on property within the Town, except water used for fire fighting purposes, or water authorized by the Engineer, for construction or other purposes, shall pass through the meter supplied by the Town for use upon such property, and in addition to whatever other remedies the Town may have by law in respect to infringement of this Chapter, the Town may, upon ascertaining that water has been unlawfully used meter and forthwith, without notice, shut off and stop the supply of water.

1190.34.3 Non payment - water shut off - authority

The Engineer may turn off the water with or without notice to any persons who shall fail to comply with the provisions of the *Municipal Act, 2001* or this Chapter in any respect, other than the payment of charges.

1190.34.4 Water turned on - only when fully compliant

The water shall not be turned on again until all provisions of this Chapter are complied with and water on and off charge for delinquent accounts specified in Chapter 684 [Tariff of Fees] has been paid to the Treasurer.

1190.34.5 Fine for contravention

Any person who contravenes any provision of this Chapter is, upon conviction, guilty of an offence and is liable to any penalty as provided in the *Provincial Offences Act*.

1190.34.6 Order - prohibiting continuation - repetition of offence

The court in which the conviction has been entered, and any court of competent jurisdiction thereafter, may make an order prohibiting the continuation or repetition of the offence by the person convicted, and such order shall be in addition to any other penalty imposed on the person convicted.

1190.34.7 Liability - loss - damage- injury to system

Every person who, by act, default, neglect or omission occasions any loss, damage or injury to any waterworks distribution system or to any waterworks plant, machinery, fitting or appurtenance thereof is liable to the Town therefore.

1190.34.8 Wilful - malicious damages - liability - fees

Every person who willfully or maliciously damages or causes or knowingly suffers to be damaged any meter, water service or any appurtenances belonging to the Town or willfully impairs or knowingly suffers the same to be altered or impaired, so that the meter indicates less than the actual amount of the water that passes through it, is guilty of an offence and on conviction is liable to a fine, to the use of the Town, and for any expenses of repairing or replacing the meter, water service or any appurtenances and double the value of the surplus water so consumed, all of which is recoverable under the *Provincial Offences Act*.

1190.34.9 Obstruction - removal of Town property - fine

Every person who willfully removes, destroys, damages, fraudulently alters or in any way injures any meter, water service or any appurtenances or thing belonging to the Town is guilty of an offence and on conviction is liable to a fine, to the use of the Town, and is also liable for all damages occasioned thereby, which are recoverable under the *Provincial Offences Act*.

1190.34.10 Separate offence - daily

Each day that a person contravenes any provision of this Chapter, constitutes a separate offence.

**Article 35
REPEAL - ENACTMENT****1190.35.1 By-law - previous**

By-laws Nos. 27-72, 107-73, 98-76, 249-77, 227-78, 106-80, 49-82, 43-83, 9-84, 235-87, 319-89, 203-90, 212-90, 268-92, 292-96, and 54-98 be repealed.

1190.35.2 Effective date

This Chapter shall come into force on the day of the final passing of the enabling by-law. By-law 2-06, 11 January, 2006.
